

Library Databases vs Google

PXU Libraries provides quality and reliable information resources with our databases!

HERE'S WHY YOU SHOULD USE LIBRARY DATABASES FOR *ACADEMIC* RESEARCH!

- **reliable, authoritative & vetted – no fake news**
- **accurate and focused results**
- **source citations automatically provided in MLA & APA formats**
- **student & academic appropriate**
- **no advertisements**
- **no distracting content**
- **updated consistently and frequently**

- **no monitoring for authority or accuracy- anyone can post anything**
- **information overload- too many results**
- **requires filters and careful supervision**
- **no source citations provided; must create MLA & APA formatted citations**
- **distracting and misleading advertising**
- **not updated consistently, if at all; often broken or dead links**

See your campus PXU Librarian for the database login information.
