

PUHSD Provides Quality, In-Depth Online Resources for Students and Their Families

If you're asking: "With all the wealth of information available for free on the Internet, why does PUHSD purchase Online Library Resources for students?" Here's why. . .

Internet	or	Purchased Online Resources
<ul style="list-style-type: none"> No monitoring for authority or accuracy; Anyone can put anything on the Internet 		<ul style="list-style-type: none"> All library-quality, editor-approved information
<ul style="list-style-type: none"> Information overload; much of it is irrelevant; Students waste time sifting through it 		<ul style="list-style-type: none"> Content selected to meet curricular needs of students
<ul style="list-style-type: none"> Requires filters and careful supervision 		<ul style="list-style-type: none"> Only kid-safe curriculum information
<ul style="list-style-type: none"> No source citations provided; Students must create MLA and APA formatted citations 		<ul style="list-style-type: none"> Fully formatted citations provided with information articles
<ul style="list-style-type: none"> Advertising can distract students and slow down the searching process 		<ul style="list-style-type: none"> No content included in the interface that distracts students
<ul style="list-style-type: none"> Broken or dead links; Many sites not updated on a regular basis 		<ul style="list-style-type: none"> Most content updated every 24 hours

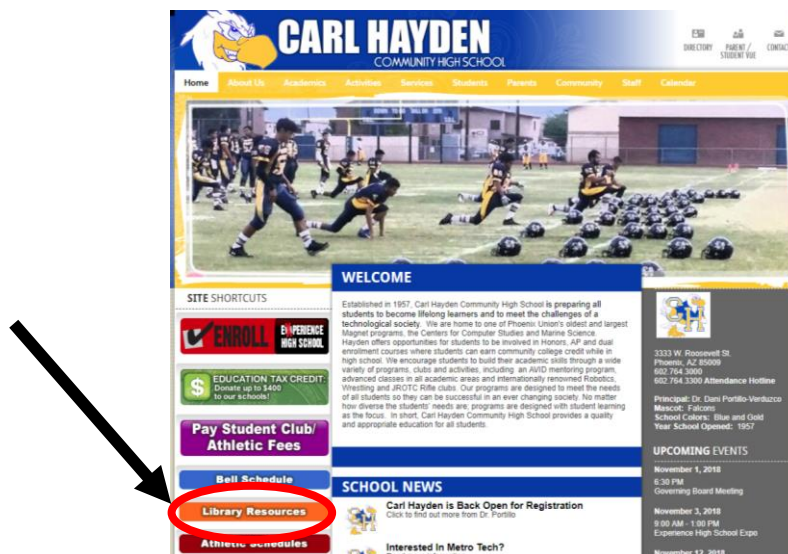

Even more important, students should be focusing on analyzing, understanding, and learning the information – not on searching. In other words—students need quality information first, before they can start learning. And quality information is provided by the Online Library Resources selected by PUHSD Teacher Librarians and purchased by our District.

Students won't waste time searching when using these Quality Online Library Resources, provided by PUHSD, all selected to support classroom learning.

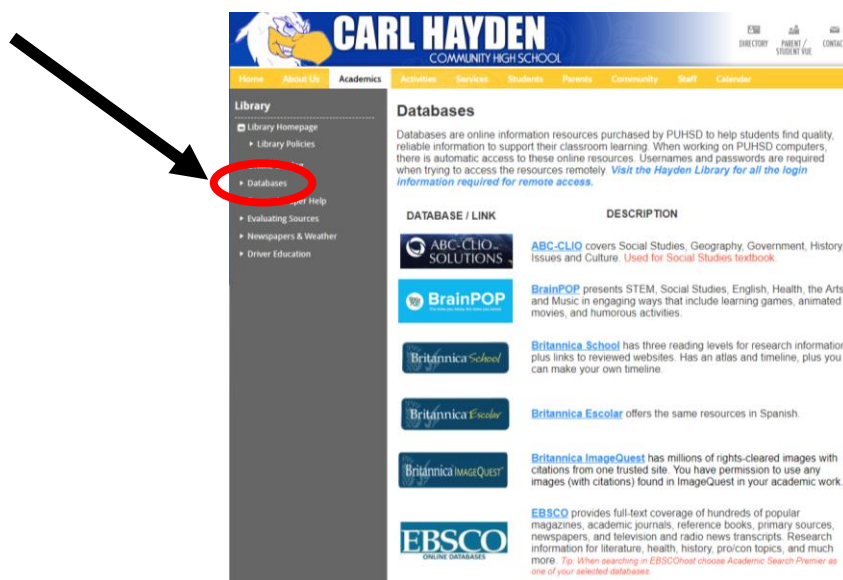

ABC-CLIO	Covers Social Studies, Geography, Government, History, Issues and Culture. Used for Social Studies textbook.

From the Hayden Homepage:

1. Open a web browser, go to <https://www.phoenixunion.org/hayden> and click on the orange **Library Resources** tab on the left side.

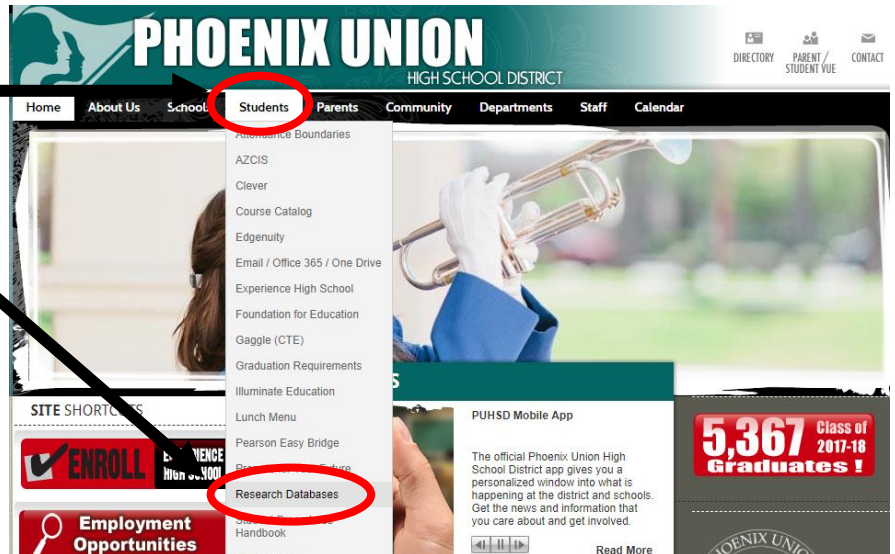

2. From the Library homepage, click the **Databases** link on the left side.

3. Select the best database for your information needs. Ask Ms. Blackson to instruct your classes on access and use of the databases. Access at school is automatic, remote access requires logins with usernames and passwords. **Visit the Hayden Library to get a list of the usernames and passwords needed to access these resources.**

From the PUHSD Homepage:

4. Open a web browser, go to <http://phoenixunion.org> and click on the **Students** tab.
5. Select **Research Databases** from the Students tab.

6. You can now access a variety of reliable information resources from this webpage.

You will need login information to access the online **Databases**.

Visit the Hayden Library to get a list of the usernames and passwords needed to access these resources.
