Recently, the Arizona Department of Education released A-F School Letter Grades. The new A-F letter grades are just one measure of how a school is doing. The letter grades are based largely on how students did on the AzMERIT assessment, as well as a range of other measures.

Camelback High School has received a state accountability grade of D.

State Accountability

Linda Abril

The A-F Accountability System is designed to empower schools to achieve and increase student success in Arizona. It provides schools with feedback on what areas they are excelling and in what areas they may need to focus on. It is a tool to help schools improve, parents to better understand what school is best for their child with empowering quantitative information when making school choices, and to help the state, policy makers and community leaders identify which schools are in need of support and how to better prioritize resources.
