

StudentVue

The following are directions on how to install and configure StudentVue for use on the Android OS.

1. Launch the Play Store App search for StudentVue. Once the App has been located click install to start the install of the app.

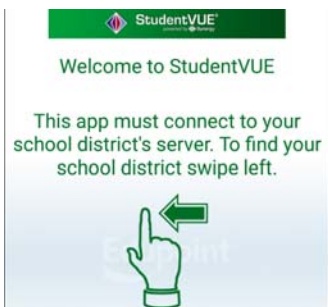

2. Click Accept to proceed with the install.

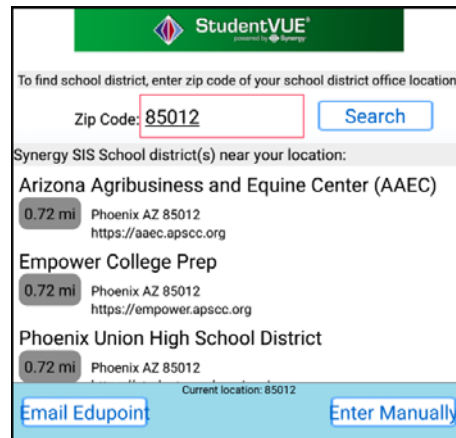

3. Click Open to launch the app.

4. After launching the app, follow the directions on the screen.

5. Here you have the choice to put in the URL for StudentVue by clicking enter manually and typing in the URL <https://studentvue.phoenixunion.org> or do a search. If you do a search use the 85012 as the zip code and Phoenix Union High School District will be the third in the list. Click that and proceed to the next screen.

6. At the login screen you will type in the same credentials as you use to login to the computer at school. Username is your ID number and Password is the same as what has been assigned to you at school. Once that information is entered click login.
